

Meeting Agenda

Date: 2017-05-25

Chair: Jacob Torrång

Secretary: Klas Ludvigsson

Participants: Klas Ludvigsson, Jesper Persson, Olle Persson, Jacob Torrång

1. Objectives

- SDD
- RAD
- Last bit of coding

2. Reports

We have connected the model to the view.

We have made a nicer menu.

We have worked on the SDD.

We have fixed a better health bar.

We have made more tests.

We have refactored code.

3. Discussion Items

We need to render the items. Items on the ground will all have the same sprite and will differentiate when picked up.

We need to finish the SDD today.

We had trouble running the program on Linux and Mac. This is a problem.

Comment on unfinished use-cases in RAD.

4. Outcomes and assignments

Everybody needs to look at the SDD.

Write a list of all use-cases we'll show in the presentation.

Finish everything.

5. Wrap up

Let's do it!

Next meeting: never.
